

Online learning at home...

The world caught a cold so let's act together...

*...we'll have to stay home,
but it isn't forever.*

We'll still learn, laugh and have fun...

...and staying at home will help everyone.

We can still draw and read books...

...and by helping at home we might
become really great cooks.

*We won't visit our friends,
our grandparents or teachers...*

...but we'll see them on screens.

It's easy to reach us.

Home isn't quite school but we will make do...

...our parents and carers know what to do.

Learning from home will be a challenge
and quite a long haul...

...not seeing our friends will be hardest of all.

Our learning is planned, weeks in advance...

...we will be resilient and give it a chance.

If the weather is good, we can still play outside...

...but safety's
important so here
is a guide.

Let's wash our hands
often and use plenty
of soap because on
squeaky clean hands
the virus can't cope.

Cough into your elbow and sneeze into a tissue, then throw it away and it won't be an issue.

If you get sick, the symptoms aren't bad but it's important to tell an adult, your mum or your dad.

Stay away from gran and grandad and those who are sick, keeping a safe distance should do the trick.

Be kind to the adults they'll
all do their best, this time at
home will be quite the test.

Check in with your friends,
make sure they're ok. A quick
call or video chat could make
their day.

These times are
tough, you might
be worried and
scared, but those
feelings are normal
and better when shared.

This isn't forever, let's not lose our nerve.

Make Australia proud, let's flatten the curve.

*Remember that in the near future,
we're just not sure when...*

...we'll play with our friends for real once again.
